Palak Khatri

Assistant System Engineer with 2.4 years of Experience in Development, Production Support and Testing.

PROJECTS

1. JAMUNA BANK LIMITED (JBL) -

The principal activities of JBL are to provide all types of commercial bank activities including accepting deposits, making loans, discounting bills, money transfer and exchange transactions.

Tech Stack — **Java, JavaScript, Css, Jsp, XML, SQL**

Responsibilities— I have been creating banking modules, generating reports, mentoring juniors, reviewing their code changes, assisting them with setting up their tools. Deploying Code to the server and making patches for the production in my current role.

2. OMAN HOUSING BANK (OHB)-

OHB provides core banking solutions like covering loans, deposits, payments and fund transfer.

Tech Stack — **Java, Springboot, JavaScript, Css, Jsp, XML, SQL**

Responsibilities— I had worked in Production Support, developed some banking modules and mentored my juniors along with reviewing their tasks was also something I got a chance to put my hands on in this project.

3. BANKING, FINANCIAL SERVICES AND INSURANCE (BFSI) -

The BFSI is responsible for providing a range of IT services to clients in the banking, financial and Insurance sector such as consulting, application development, maintenance and testing.

Tech Stack — **Java, Springboot, Jsp, Css, SQL**

Responsibilities — I had started working as a manual tester after a few months. I had worked as a developer and added a bunch of different features into the modules and after that worked on Ireport for creating financial reports**.**
