SUMMARY

Experienced software engineer with experience creating responsive and animated web pages.I attended tech conferences, participated in hackathons, and contributed my some projects to open source.

SKILLS

- **Programming languages:** HTML, CSS, JavaScript.

- **Frameworks & Library:** React, Tailwind, Bootstrap, Figma, Canva.

- **System/tools:** Notepad++, Sublime Text, Vs Code, Git.

- **CSSBattle:** Link

PROJECTS

ProHunt: Product Reviews & Ratings Link to Demo
React | Tailwind | Framer-motion | Skeleton Css

- Developed a website using **HTML**, **CSS**, and **React**.

- Build a responsive website from scratch.

- As we have four members to build this application so in this project all the front-end layout and design has done by me

Gericht: A Food site Link to Demo
React | CSS

- Developed a web-based application for an online food ordering service using **React** and **CSS**.

- The application included a static and responsive website
